## Burnishers

### Tornado® Battery Glazer 17 High-Speed Burnisher

A one of a kind burnisher that operates on green batteries instead of a standard power cord. Two hours of run time before the batteries need recharging. Motor: 0.6 hp. Power System: GEL batteries. Dimensions: 26" L x 18" W x 39" H.

TOR98494

17"

ea

### Tornado® Brute Force Glazer™ Burnishers

Expertly balanced for ideal pad-to-floor pressure and sustained RPMs. You get total pad-to-floor contact, which means greater efficiency, speed and overall cost-savings. Provides excellence in design, operator comfort, and unsurpassed burnishing performance. Specially patented design combined with precision balanced weight distribution which eliminates the need for a compensating center or front mount caster. Self-adjusting pad driver. One piece rotationally molded housing designed to absorb the torque and vibration normally felt when operating high speed. 1.5 hp motor. A 20" burnishing path, flex pad holder, lock-in retainer, 1.5 hp motor, and one piece all metal tube and switch housing it can handle the most demanding jobs. 20" rotary diameter; rotary disc brush design/type. Motor: 1.5 HP, 22" H. 20" cleaning path; 35.5" L x 23" W x 44.5" H.

## Dryers

### Tornado® The Windshear 3200 Dryer

Built with an injection molded polypropylene copolymer housing to withstand the harsh, every-day use of contract cleaners, restoration professionals and more. Weight: 21.1 lbs.; Voltage: 120; Velocity (FPM): 3758. Motor: .6 HP, 522 watt, 4.35 amp. Speed: 3-speed; Power cord: 18.5'.

98774

ea

### Tornado® The Windshear™ Downdraft Dryer

Spaces are dry, safe and ready for immediate use. Will dry an entire room in as little as 15 minutes. Angle adjustment is a built-in feature. 2500 - 3500 CFM airflow. 115V/60 Hz power. .25 HP motor.

98784

ea

### Tornado® The Windshear™ Storm Dryer

Compact size, low amp draw and lightweight with "Driven Air" technology for fast drying. Lighter and smaller. Stackable. Power: 120V; Air flow direction: 0°/30°/90°. Power cord: 20'.

98778

ea

## Extractors

### Clarke® EX20™ Portable

**Extractors** Ergonomic design allows for easier loading and transport. Unique transport handle design makes maneuverability, and control around facilities a breeze. Handle on top of the tank assists in lifting, loading/unloading and acts as a vacuum hose guidance system. Oversized, rubber grip rear wheels. Two front panel roller wheels assist unloading and unloading from transport vehicle. Extension cord wraps to protect extension cords and make maneuverability and transport through facility easier. Easy-fill solution tank access port. Sloped recovery tank design. 3-stage vacuum motor has unrestricted airflow for superior water recovery. Closed, sealed system reduces wear and extends vacuum motor life. Vacuum: Single 5.7", 30stage; Vac shutoff: Ball float.

ea

### Clarke® Focus II Mid Size Autoscrubbers

Provide an increased capacity, longer run times, and are easy to operate! Disc scrub deck is powered by two heavy-duty brush motors. The gimble mounted brushes and pad driver contours uneven floors for even scrubbing agitation. The cylindrical model is ideal for scrubbing grouted tile, imperfect, or rough textured floors. Debris is conveniently collected into a removable tray by the counter rotating brushes. The brushes are also easy to change out without using tools. The optional Chemical Mixing System gauges the appropriate amount of chemical and mixes it into the solution flow. The ounce per gallon setting is controlled by a knob on the control panel. Vacuum Motor Power: .75 hp, 3 stage tangential discharge.

Rolled rims add strength, and are easy to clean. Designed for convenient desk side waste management. Innovative rim tabs prevent jamming when nested. Rubbermaid's reliable, puncture-resistant, all-plastic construction means they won't rust or chip and will stand up to years of use. Rounded corners and smooth contours make for easy cleaning and emptying. Tops are sold separately.

### INO Derm Foam Soap Dispensing Systems

From the clean contemporary lines of the dispenser to the unique push pad placement and rich luxurious foam soap, INO foam is the "easy" solution for every hand soap need. It features a large, easy-to-use push pad located at the top rather than the bottom of the dispenser. The push pad placement lets users see the amount of product being dispensed into their hand, thus reducing waste caused by over-dispensing. The dispenser is ideal for the disabled, requiring one hand and less than 5 lbs. of pressure to dispense product. With 0.75 mL of rich foam per push vs. 1.5 mL for most bag-in-box liquid systems, the INO Foam system will provide twice the number of hand washings per 1,000ml bag. 100% leak-proof mechanism. Ideal for the disabled. Provides 1,333 hand washings per 1,000 mL bag compared to 666 for most similar systems. Comes with interchangeable labels to identify product.
